Lost Land Lake is three miles long and one and three quarters mile wide. It has a maximum depth of 25 feet with four streams flowing into the lake. In addition, there is a scenic, navigable channel into Teal Lake-also noted for Musky fishing. The two lakes provide uncrowded and quiet waters with no water skiing or motortrolling.

For your comfort, we have provided automatic gas heat, hot and cold running water, showers, and flush toilets. Each spacious cabin has a knotty pine interior. All have two large bedrooms, plus a hide-a-bed in the living room, giving accommodations for up to six people. Each bedroom has ample closet space. All blankets and linens, except towels are included in your rate. Cribs and high chairs are furnished on request - please furnish your own linen and blankets for the cribs. The modern kitchen facilities include refrigerator and gas range, dishes, cooking equipment, microwave and electric coffee makers.

Fisherman can match their wits against the wily Musky, Northern, Walleye Pike, Bass, Crappies, and Panfish. Also offered to our guests at no extra charge is our deep freeze service. For your convenience we have a screened-in fish cleaning house, with running water and lights. One Alumna Craft 14' boat is included with each cabin rental. A speed limit of 10 m.p.h. is enforced on the lake to preserve the rights of the fisherman. Extra boats and motors are also available for rental upon request, by the day or week. Gas and oil for motors for sale here. Hunters will enjoy the large area open to ruffed grouse (partridge). We are open for partridge and bow and arrow season.
